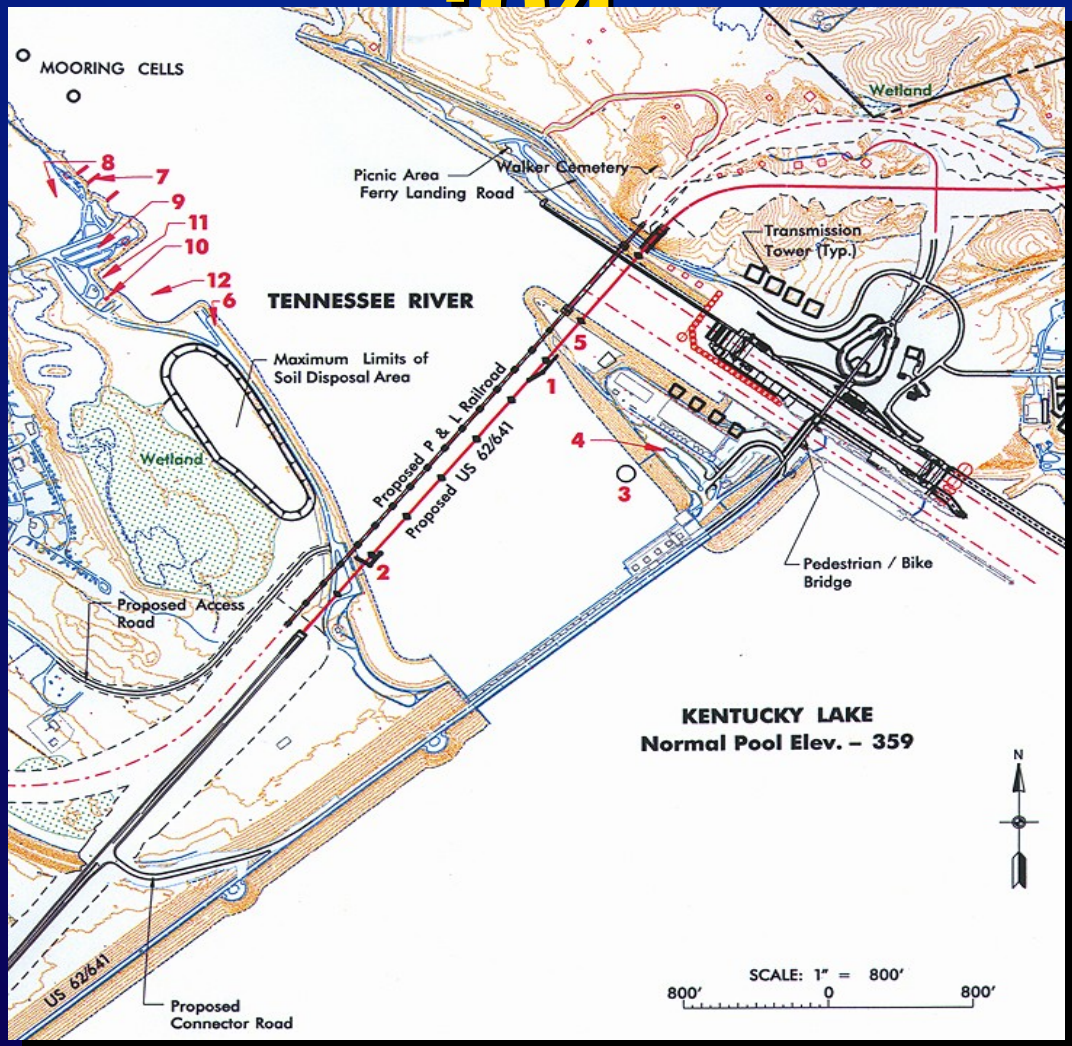
Restrictions on Boats in Tailwater '01 to '04



During Pier Construction

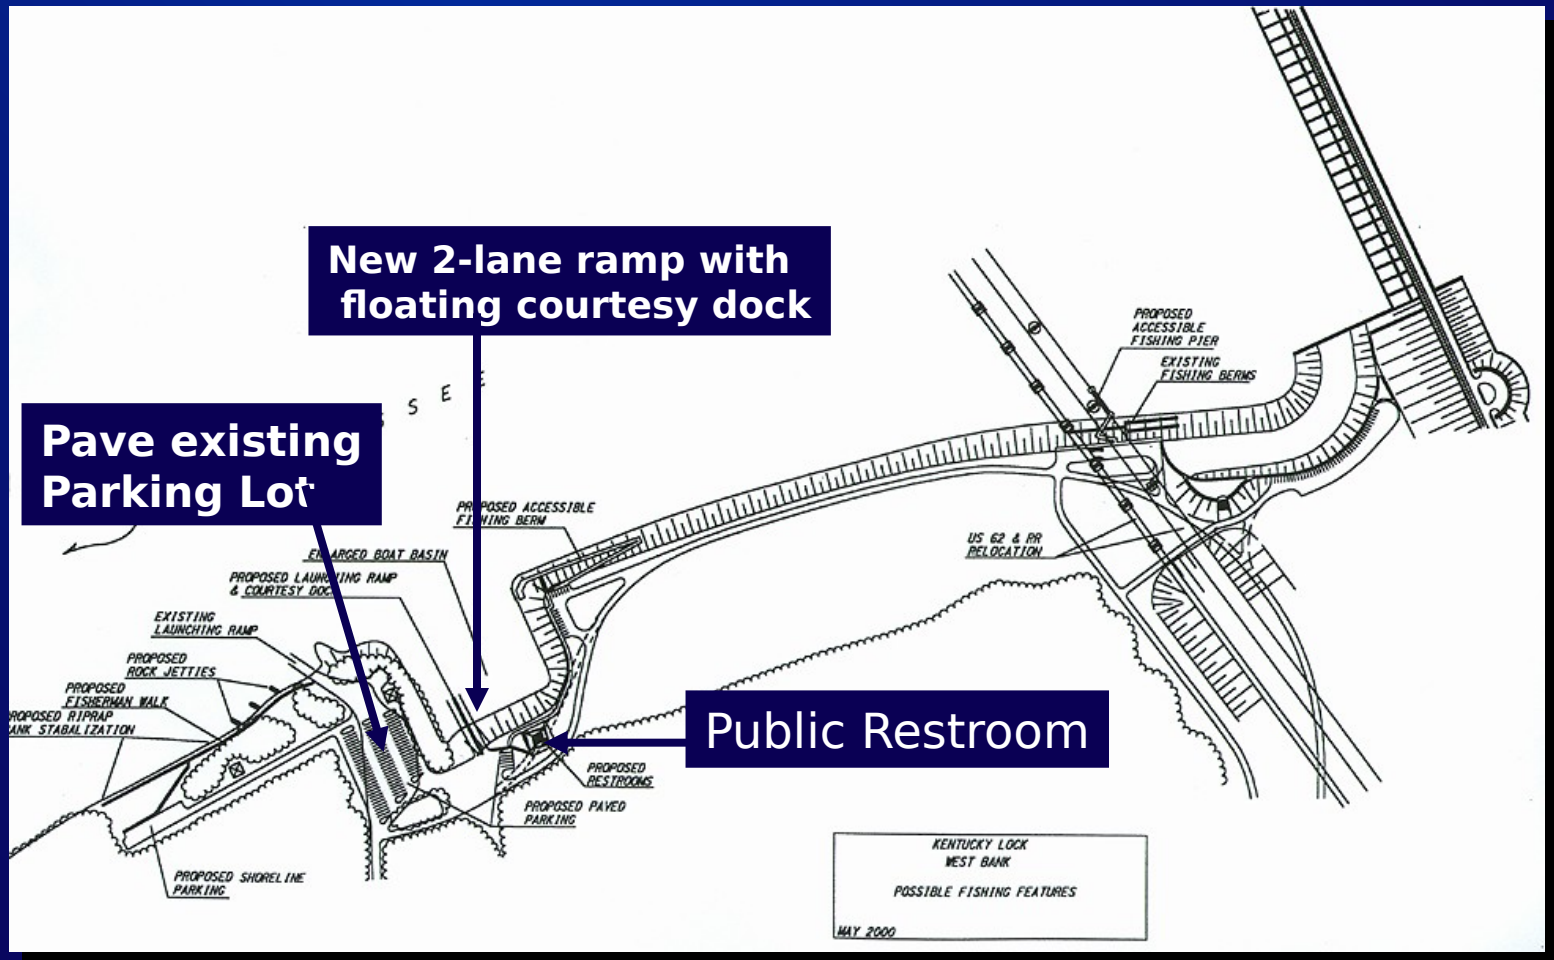
Exclusion zone around pier(s) being constructed. Size of

During Steel Erection

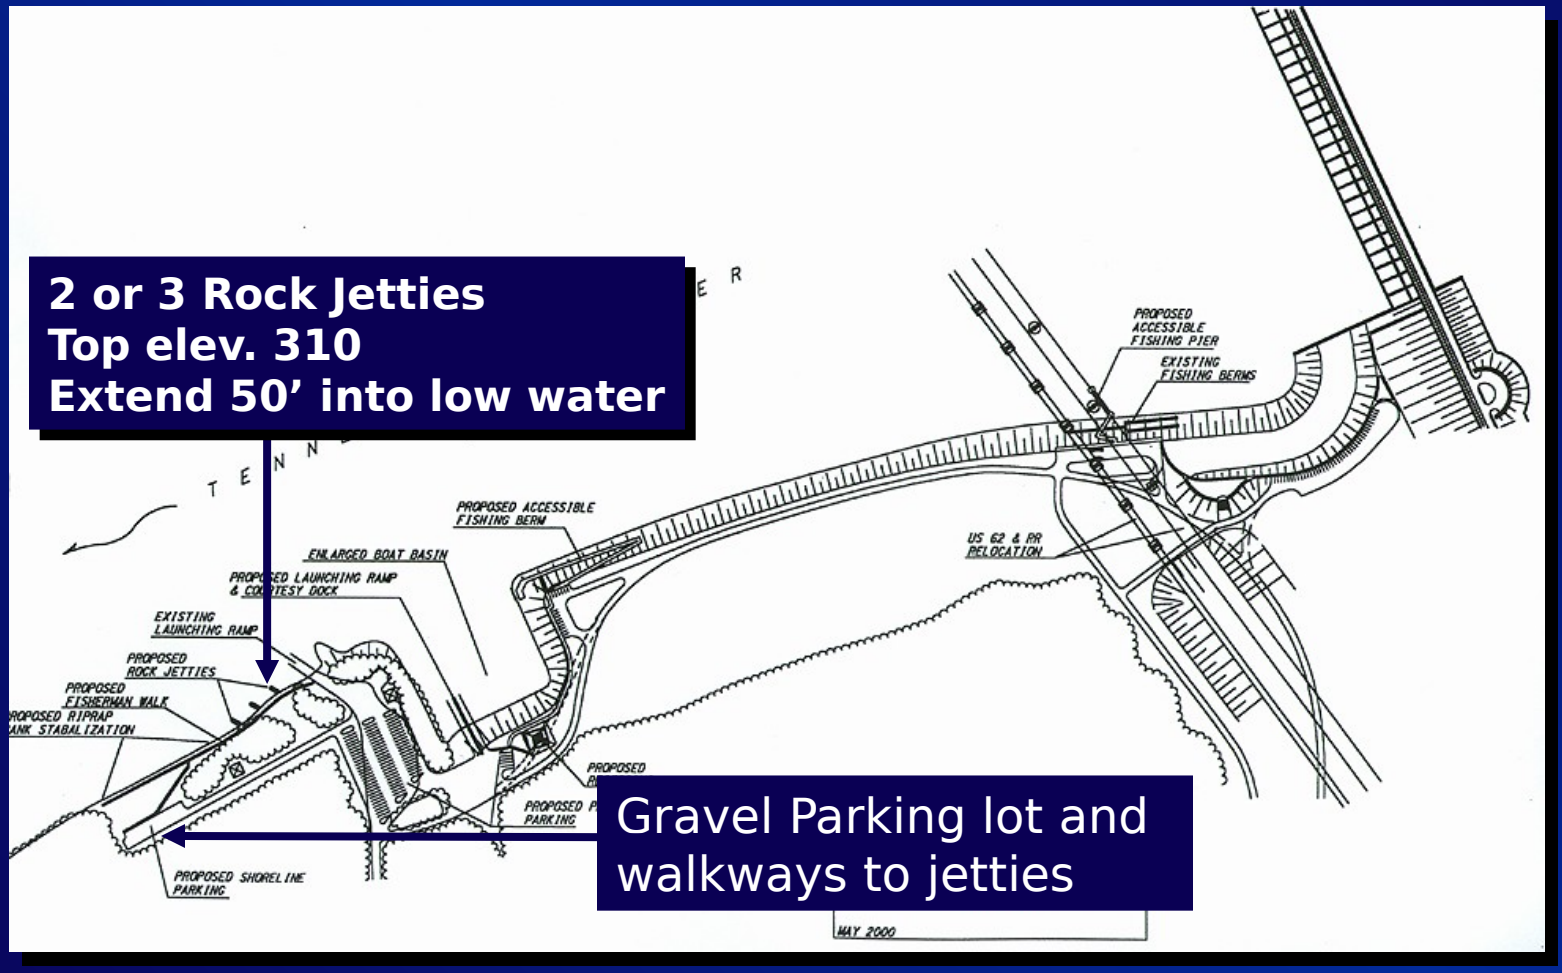
Exclusion zone between piers where steel is being placed.

It is intended to keep a majority of the tailwater open to fishing vessels at all times.

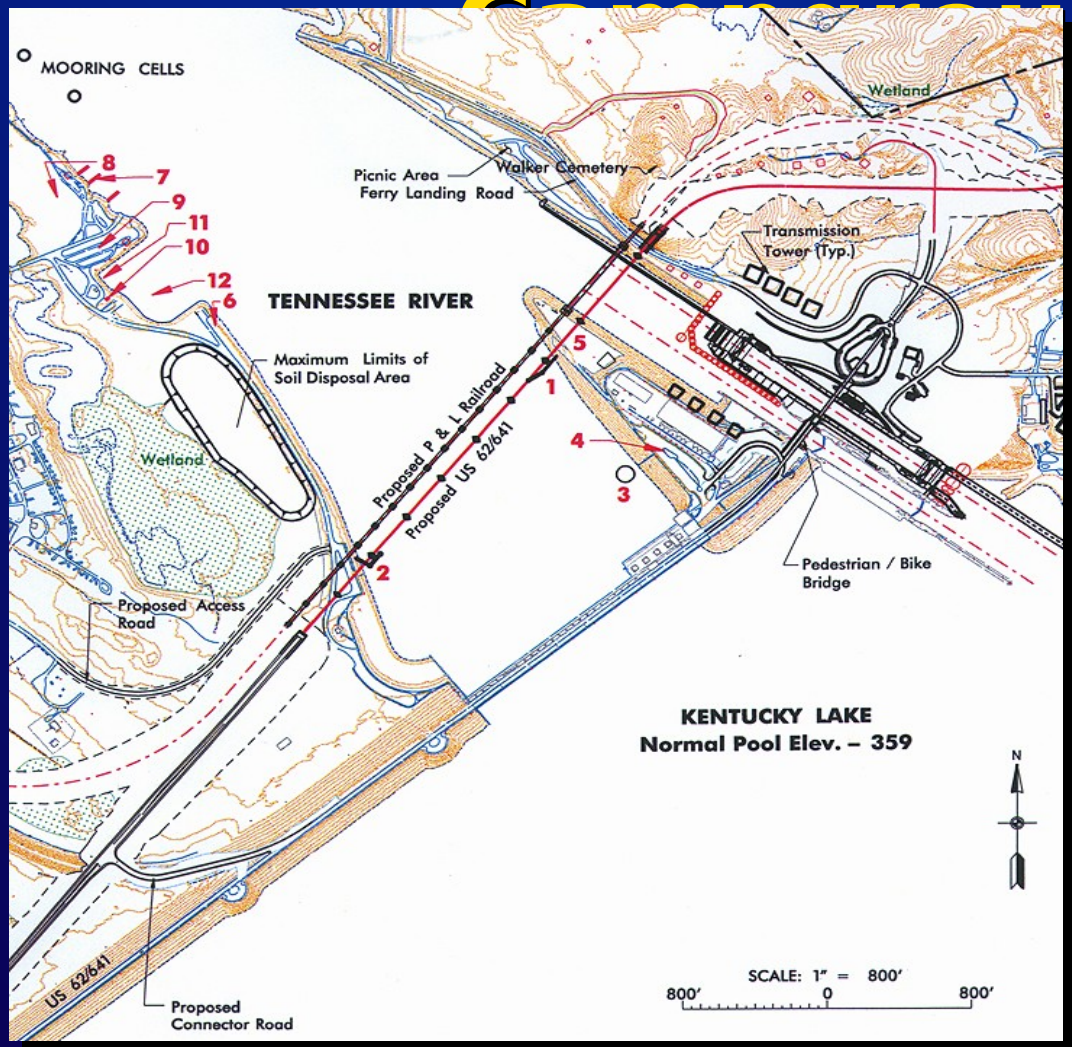
Mitigation for East Bank Ramp Closure



Mitigation for WB Bank Closures during Construction



TW Fishing Mitigation for TP Campground



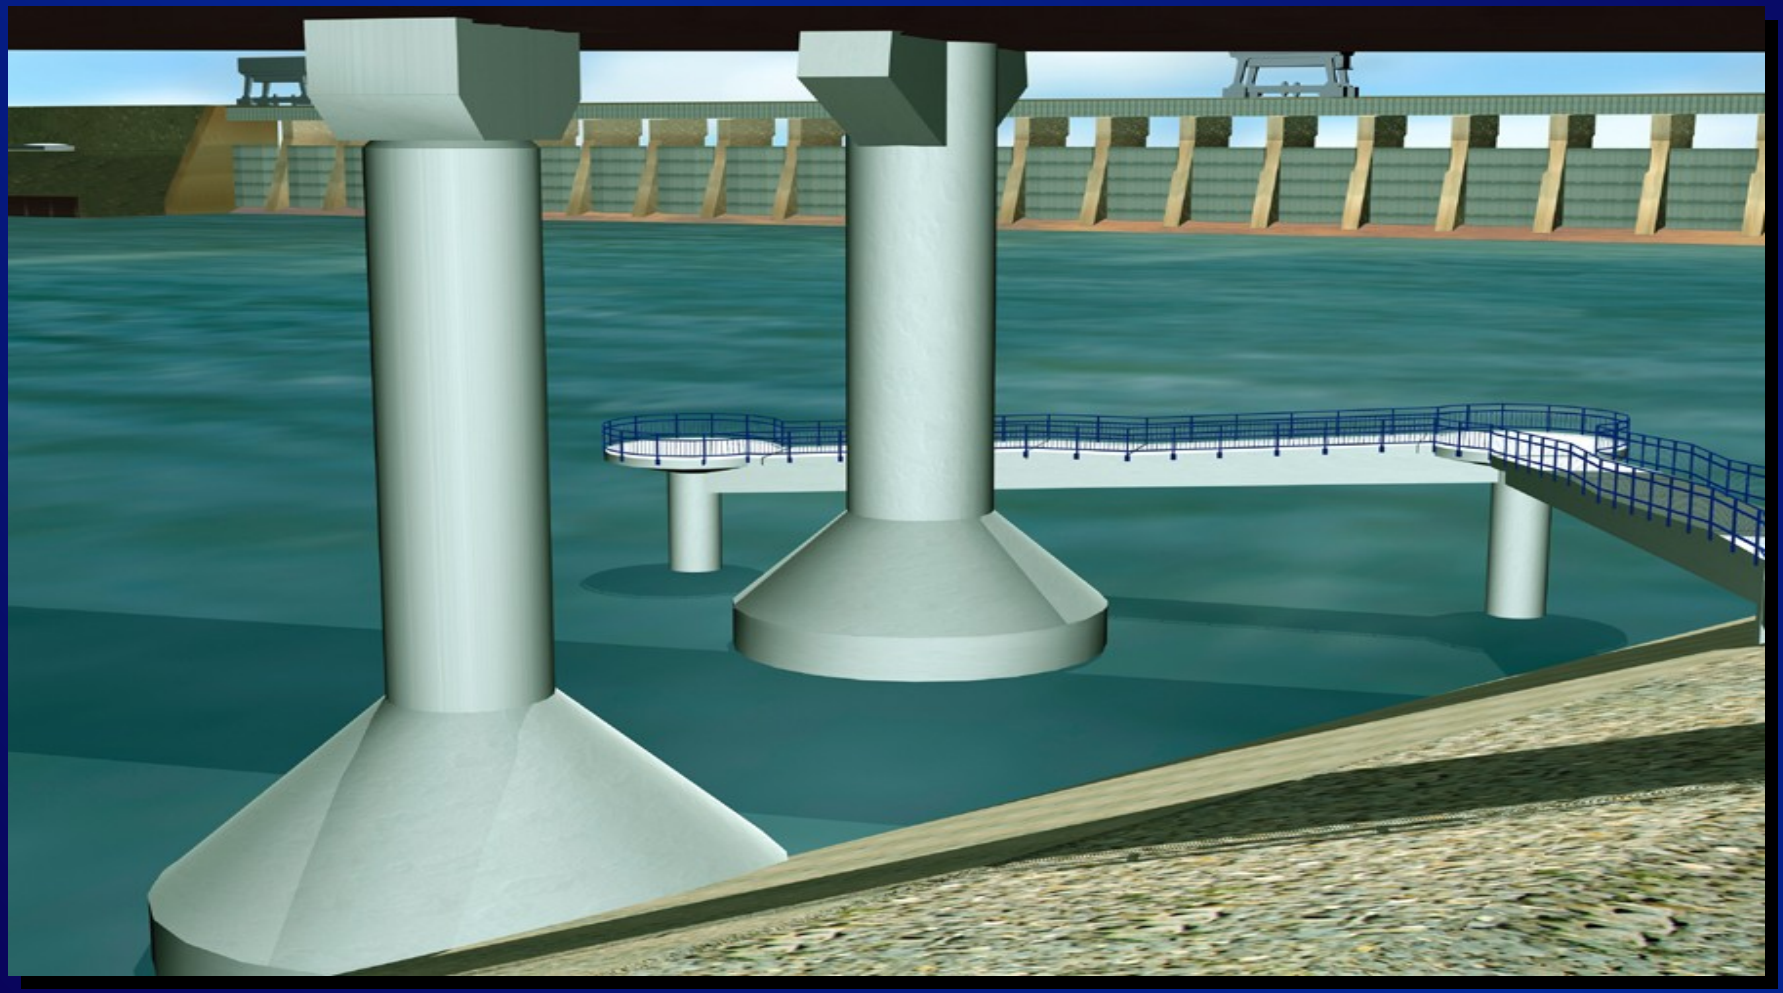
Possible Tailwater Fishing Enhancements

Maximum Budget $1M

1. **Island Fishing Pier**
2. **WB Fishing Pier**
3. **Raise part of existing fishing coffer cell**
4. **Additional public restroom on island**
5. **Parking lot downstream end of island**
6. **Additional fishing walkways on west bank**

Fishing Pier - Powerhouse Island

West Bank Fishing Pier



West Bank Pier Height

- Three elevations for low pod being considered
  - 318
  - 313
  - 310
- Issue: Frequency of inundation and associated maintenance and usability vs. height above water affecting ease of fishing
